

## Rhode Island Premier Contractors

*Trained by Cool Smart, these contractors have purchased proper Duct Testing Equipment and offer all aspects of ENERGY STAR Quality Installations to their customers.\**

This means they will do load calculations to determine proper AC equipment size; test the equipment for correct refrigerant charge and airflow; upon customer request they will also test attic ducts for leaks, and if they are leaking, they will seal the ducts so conditioned air is delivered to your living space to ensure comfort and maximize the benefit of your purchase

**New Equipment Installation and QIV testing**

**Digital tune-ups on existing systems**

**Duct Testing and Duct Sealing services**

**ENERGY STAR® Quality Installation (ESQI)**

### **Lawrence Air Systems**
